I've had the best experience of online lectures until now, the way Radhika ma'am teaches us doesn't bore us at all.

I don't believe in the concept of online classes but radhika ma'am makes sure she is always interesting and also the way she solves our queries/doubts at any moment you text her is amazing. I'm really thankful to Radhika ma'am specially and team IFA throughout.

IFA is one of the best institutions for CFP. The faculty and staff are really helpful, polite, and approachable. One of the best teaching experience I have experienced so far. They also guide you through the whole process of CFP from registration to booking your seat for examination. I really appreciate all the hardwork, support and motivation provided by Himanshu Sir and their staff to each and every student of their academy. I would recommend this class if you're pursuing CFP. 😊

This class is one of the best for your Certified Financial Planning preparation (CFP). I've been here since 5 months and my experience has been quite satisfying. The faculty, the management and even the CRM team takes up your care personally and is always there to help you. (Even with the registration process with FPSB and helps you to do so without mistake). The teaching pattern is apt, interesting and very clear. If not to you, you can anytime catch up with them to ask doubts. The teaching material taught with and provided is enough for you to pass the exam. (DON'T MISS THE EXAMS AS THEY ARE MOST IMPORTANT HERE). And giving those exams made me pass my level 1 of CFP smoothly. Consider this class in your list when you think of giving any capital markets examination.

From a CFP student point of view..

The course was very comprehensive and easy to understand. The instructors made sure that they are giving the information in a way that won't make me confused and doing their best to support learners. Great experience overall this year even though it had been mainly online. Teaching has been great and extra effort has gone into supporting us students .
